PROFESSIONAL PROFILE

I'm a Venezuelan technology and programming enthusiast seeking to join a professional team where I can contribute my knowledge while continuing to develop my career as a Systems Engineer. I am interested in applying my technical skills and experience to design, implement, and optimize innovative technology solutions in a dynamic and collaborative environment.

EDUCATION

2022 – Present	Systems Engineering Instituto Universitario Politécnico “Santiago Mariño”
2019 – 2022	Higher University Technician in Computer Science Instituto Universitario de Tecnología Industrial “Rodolfo Loero Arismendi” (IUTIRLA)
2013 – 2018	High School Diploma U.E.C.E. Jean Piaget, Maturín

WORK EXPERIENCE

Systems Administrator Helados Kolibrí	<i>April 2024 – Sept 2026</i> <i>Güiria, Sucre</i>
--	---

- Performed preventive and corrective maintenance on computer equipment.
- Implemented a digital inventory management system using Hybrid administrative software, improving inventory control accuracy and efficiency.
- Entered product data into the new inventory system, ensuring accurate cost configuration and sales panel setup.
- Conducted onboarding and training sessions for new system users.
- Performed testing and adjustments to ensure the proper operation of the system.

Systems Assistant Hotel Luciano Junior C.A.	<i>December 2021 – October 2022</i> <i>Maturín, Monagas</i>
--	--

- Performed preventive and corrective maintenance on computer equipment.
- Developed and implemented a PowerShell script to optimize backup processes.
- Continuously monitored the corporate network to ensure connectivity.
- Provided cross-departmental support for incidents related to the IT department.
- Conducted onboarding and training sessions for new users of the company's administrative systems.
- Maintained and managed administrative systems, including A2, HOSPES, and the internship project for the IT department inventory system.

IT Intern Hotel Luciano Junior C.A.	<i>October 2021 – December 2021</i> <i>Maturín, Monagas</i>
--	--

- Designed, developed, and implemented an inventory management system for tracking computers by department.
- Assisted with onboarding and training sessions for new users of the company's administrative systems, including A2, HOSPES, and the IT inventory system.

SKILLS

Technologies:	Python, Java, C#, Visual Basic, Git, HTML / CSS, JavaScript, MySQL, PostgreSQL, Access, Linux, Bash, AI and Automatization Tools (Claude Code, Open Code, n8n, etc.), Microsoft Office.
Soft Skills:	Analytical and logical thinking, problem-solving, self-learning, teamwork, and effective communication.
Languages:	Spanish (Native), English (B1).

COURSES AND CERTIFICATIONS

Apr. 2026	Microservices Architecture API Development Course – Academos, Maturín
Nov. 2025	Git Course – Academos, Maturín
2024	Platzi Courses (Online): • Logical Thinking: Algorithms and Flowcharts • Logical Thinking: Data Handling, Structures, and Functions • Logical Thinking: Programming Languages • Python / Comprehensions, Functions, and Error Handling / PIP and Virtual Environments • Introduction to the Terminal and Command Line • Frontend Developer • Internet Networking • Introduction to Excel
2019	Preventive and Corrective Computer Maintenance Course – IUTIRLA, Maturín
2016 – 2018	English Course – Mundo Fonético, Maturín
